Chairman's Statement

Dear shareholders,

2008 was another very successful year for ladwa Investment, amid the most turbulent times in the financial services industry. We built on the outstanding start to our operations in 2007 to make Jadwa one of the most respected financial organizations in the region. Our exceptionally talented team has developed an unrivalled range of products and services and our investment foresight and Sharia principles have helped us to prosper in very challenging market conditions. Our reputation and achievements convinced Khazanah Nasional Berhad, the investment arm of the Malaysian government, to join us in a partnership that will open the door to exciting investment opportunities and foster the exchange of know-how and expertise between two countries central to Islamic investment banking.

Our achievements in 2008 reinforced our position as the leading investment company within the Kingdom. Our award-winning investment banking team secured several prestigious mandates, including sole advisor and arranger on one of the Kingdom's largest ever Islamic project financing and joint advisor to a party in a major M&A transaction between two publicly traded companies. Asset Management launched six new funds including the first Africa investment fund in the region. All of our flagship funds, for the Saudi, GCC and Arab stock markets, were among the best performing in their class. Jadwa has strengthened its position as the principal source of stock market and economic research within the Kingdom. Last year it launched daily coverage throughout the height of the global financial crisis. With our market-leading service gaining traction, the brokerage department achieved notable growth in its market share.

Financial performance last year was encouraging given the hostile market conditions. Healthy growth in revenues from asset management, investment banking and brokerage helped generate revenues of SR 163.2 million. The introduction of various initiatives to control costs enabled us to reduce expenses and contributed to a net profit of SR 30.2 million. Return on equity was 6 percent and return on total assets was 4 percent. As we had anticipated some turbulence in asset prices, we maintained a conservative posture in our proprietary investment portfolio with no debt and a substantial cash cushion, achieving as a result a positive return for the year.

It is clear that we face a tough operating environment in 2009. The global economy has plunged into recession, oil prices have dropped sharply and throughout the world the prices of assets, especially shares and real estate, have been pulled very low. While this presents some challenges, it provides numerous exciting opportunities for Jadwa and we are exploiting these to deliver more compelling investment offerings to our clients. We also benefit from being in an economy that is well positioned to withstand the weak global outlook owing to the consistent implementation of farsighted and proactive economic policy and enlightened capital market liberalization. I am therefore confident that as we progress through 2009 we will take advantage of the new opportunities around us and take Jadwa to new heights.

Thank you,

Faisal Bin Salman Bin Abdulaziz Al-Saud

Chairman of the Board of Directors

Company's Overview

Asset management

Asset management witnessed explosive growth in 2008 in the face of very turbulent market conditions; revenues increased by 285 percent and six new products were launched. Eleven of our 14 funds outperformed their benchmarks during 2008. Based on publically available information, the company's three flagship funds, Jadwa Saudi Equity, Jadwa GCC Equity and Jadwa Arab Markets, were among the top three performers for the year in their respective categories.

Total assets under management at the end of 2008 were SR3.7 billion, down by 14 percent from the end of the previous year. However, this decline should be seen in light of the more than 50 percent fall in equity markets across the world and the 29 percent drop in assets under management for the asset management industry in Saudi Arabia. Jadwa now manages around 3 percent of the total assets under management in the Kingdom and has by far the largest share of any of the new investment companies. The outperformance of our funds means that we are well positioned to acquire additional assets under management in 2009, market conditions permitting.

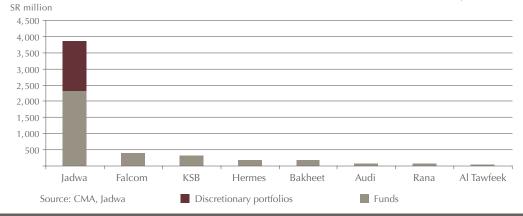

Investment banking

Investment banking had a successful 2008 despite challenging market conditions. The team originated eleven mandates, of which seven are active as of the end of the year. Revenues in 2008 reached SR53 million and the 2009 pipeline is strong. The team is executing mandates in project finance, M&A, private placements and private equity.

The team added seven professionals to reach a total of thirteen, with expertise in sectors and product areas aligned with the key economic drivers of the Kingdom. As a result of the high quality of the team and a relentless focus on execution, investment banking achieved several milestones during 2008, including:

- Winning two awards: "Best New Private Equity House" and "Best New Private Equity Fund" at the Private Equity World – 2008 MENA Awards in Dubai;
- Mandated as sole advisor and arranger on the SR16 billion Jabal Omar Mecca Real Estate Project, among the largest Islamic financings ever conducted in the Kingdom;

AUMs of non-bank AM divisions (as on Dec 31, 2008)

Despite the turbulent circumstances, Jadwa Asset Management witnessed explosive growth in 2008 with revenues increasing 285% and an addition of 6 new products to Jadwa's product offering.

 Mandated as joint advisor by Hail Agricultural Development Company to respond to Almarai's offer, the first public-to-public M&A transaction in the Kingdom.

Wealth management

Wealth management is the department charged with managing the investments of institutional clients and high net-worth individuals. The wealth management function was restructured in 2008. We enhanced our strong team of relationship managers and refined our communication channels to enable us to better manage large client accounts and attract new clients. We participated in various visits and road shows both domestically and internationally in order to promote Jadwa and its products and services and have developed strong relationships with top national and international companies and government institutions. Over 2008 we increased the total number of Jadwa clients by 271 percent.

In accordance with our strategy to place the client at the center of our priorities, we replaced our branches with a team of highly qualified relationship managers to directly engage with clients and cater for their needs. This enables the relationship managers to better understand their clients and to provide them with the products necessary to achieve their investment goals.

Brokerage

Brokerage doubled its market share in 2008, generating trading volume worth SR12 billion and achieving all its objectives despite the adverse market climate. This was the result of a careful targeting of client segments and our reputation for offering the best quality service in the Saudi market. We are examining increasing our access channels to markets.

Research

Jadwa strengthened its position as the leading source of stock market and economic research within the Kingdom. In 2008 we launched our equity research service and provided daily updates throughout the height of the global financial crisis. Our Monthly Bulletins and

other ad hoc reports remain a benchmark for informed commentary and analysis on the issues affecting the Saudi market and economy.

During 2008 we attracted widespread attention in the market through our equity research. We initiated coverage of 19 companies, reports on eight companies and one sector were published; a further 11 companies were analyzed in consultancy mandates, and strong additions were made to the equity research staff. Each published report is produced exclusively for Jadwa clients, an attraction that is playing an important role in broadening the base of Jadwa's business. Our 'buy' recommendations outperformed the market by an average of over 20 percent between the issuance of the report and the end of the year.

We recognized quickly that the troubles in the US financial sector would have significant ramifications beyond the US and launched a daily commentary over the months of extreme global financial stress. These reports examined the complex events occurring around the world and presented them clearly and concisely with emphasis on the implications for the Saudi market and economy. As with all of our reports, these were published simultaneously in English and Arabic, and we made arrangements with the premier local Arabic economic daily newspaper to publish these reports. Regular presentations and media appearances by our staff have continued to raise awareness of Jadwa and generate new business opportunities. All our publicly disseminated reports are given widespread coverage in the local and regional media.

Shari'ah

The Shari'ah group had a highly productive 2008. We conducted six meetings with the Shari'ah Board of Jadwa and Russell Jadwa in which 36 research memorandums were discussed after a complete internal Shari'ah and technical review with related departments. The meetings resulted in 23 Shari'ah Board resolutions. Four Shari'ah control reports were issued to monitor the compliance of both Jadwa and Russell Jadwa with the Shari'ah Board resolutions and guidelines.

Company's Overview (continued)

We conducted two workshops that covered sukuk (presented by the head of the Shari'ah Group) and Hedging in Islamic Finance (presented by Dr. Sami Al Suwailem in coordination with the Islamic Research and Training Institute). Two of our staff were awarded a Certified Shari'ah Adviser and Auditor (CSAA) qualification by the Accounting and Auditing Organization for Islamic Financial Institutions. We also established a Shari'ah library to support research development and issued Shari'ah educational reports.

Legal

The legal department performed a critical role in supporting other departments by providing top quality legal services. In 2008 we were heavily involved in the legal work regarding all of the company's key deals including the equity partnership with Khazanah and the Jabal Omar transaction.

Corporate secretary

The Corporate secretary serves as the contact point between the Board of Directors, Senior Management, and the Shareholders. The role of the Corporate Secretary is to provide advice to the Board of Directors, and to organize its periodic meetings. He also records and maintains the meeting minutes and follows the implementation of its recommendations. He is also responsible of arranging general assembly meetings of shareholders in coordination with the concerned government departments.

Compliance and AML

Throughout 2008, the compliance and AML unit focused mainly on the development and implementation of various important policies. The following policies were introduced: employee personal dealing policy, whistler-blower policy, Chinese wall policy, MD compliance policy statement, Jadwa compliance program and its attachments and the generic compliance grids. Furthermore, all training needs and certification

programs required by the regulator were completed. The department secured all necessary approvals for the new funds launched during 2008. We continue to administer and coordinate with the relevant business units all facets of know your customer, politically exposed persons, related accounts and high-risk accounts.

Corporate communications

2008 was an exciting and challenging year for corporate communications as Jadwa shifted from being a new brand to an established one. We planned and executed a number of major projects including sponsorships, event management, corporate branding, product and service launches and promotions, as well as the design and production of different collateral (below the line) items. In addition, we signed a contract with a new advertising agency and brought a new marketing manager on to the team.

We identified the most rewarding events to participate in and sponsor during 2008 and had a prime physical presence at the main conferences in the Kingdom and elsewhere in the Gulf. We sought out the top financial awards and prepared the necessary documentation that facilitated Jadwa winning two awards at the Private Equity World Awards MENA 2008. Special national and international public relations campaigns and events were organized to celebrate key deals, awards and fund launches. We initiated the corporate social responsibility program, including establishing close relations with a local university.

Human resources

Jadwa's human resources department has evolved from an administrative process-based function to more of a strategic partner with our business units and departments, supporting them to achieve their objectives. In 2008 we focused on strategies that will align human resources with the strategic business needs and priorities of the company. We established the learning and development

This achieved Jadwa's goal with the win of 2 awards in the Private Equity World Awards MENA 2008 held in Dubai November 2008.

section, which helps all business units in identifying employee development and training needs. In addition, a restructured employee grade and position system was implemented throughout the company, various HR functions were automated and a new policies and procedures manual produced.

Information technology

The information technology department remains at the forefront of providing business-driven solutions to internal and external clients. During 2008 we continued to launch new products and enhance existing services in line with the demands of our clients. Our best of breed IT infrastructure provides Jadwa with a competitive edge while being highly efficient and scalable. Development and execution of IT systems, data protection, information security and business continuity functions all form part of ensuring that Jadwa has the appropriate systems in place to exceed the expectations of its clients.

Investment operations

Investment operations handles the entire operational and back office activities of asset management and brokerage as well as reconciliation of all Jadwa operations accounts and client account opening. Over the past year, we filed all the statutory reports with the regulators and auditors without any adverse comment. In addition, we entered into comprehensive service level agreements with other Jadwa departments and procured a new system for fund administration and portfolio management that will further enhance the quality of services provided.

Premises and administration

Premises and administration continuously ensured the optimum environment inside Jadwa's offices. We also refined the booking policy for travel and accommodation for staff, made all logistical arrangements for company events and procured all necessary supplies for the smooth running of the office.

Strategy

In a proactive response to the collapse in global financial markets, the strategy department fine tuned corporate strategy. A strategic planning process began in the final quarter in which all levels of management participated actively. The outcomes were fruitful and commitments were renewed to execute our long-term strategy through setting short-term objectives at both the corporate and business unit level. As a result, we are developing innovatively tailored solutions to address the investment needs and risk appetite of our existing clients and target market.

Finance

The finance department had another successful year in 2008. We introduced full costing and performance reporting by profit centers, produced Jadwa's first ever comparative financial statements and established a baseline to launch the first detailed budget for 2009. With a very low cost per transaction, we are one of the most efficient finance departments in the region. The finance department was a leader in advising the Capital Market Authority on prudential reporting best practices and Jadwa is considered a benchmark for the industry in terms of reporting timeliness and quality.

Risk management and internal audit

The department vision is to "ensure that risks borne by the business are within the Board-mandated risk appetite, through efficient and effective risk measurement, assessment and reporting". The most important function of Operations Risk management is implementing Controls and Risk Self Assessment (CRSA) which will also benefit the Internal Audit function.

Shari'ah Supervisory Board annual statement for the year 2008

This annual statement reflects the compliance of Jadwa Investment with the shari'ah guidelines, as well as the cooperation and commitment of all departments in applying shari'ah resolutions.

الهيئة الشرعية Shariah Supervisory Board

حدوى للاستثمار Jadwa Investment

In the name of Allah the Most Gracious the Most Merciful Shari'ah Supervisory Board (Annual Statement for the Year 2008)

All praise is due to Allah, peace and blessings are due to Prophet Muhammad, his household and companions.

The Shari'ah supervisory board has reviewed the shari'ah internal audit reports for the year 2008, prepared by the Shari'ah Group Department on the Shari'ah compliance of the activities of the company.

After a thorough review the Shari'ah board is of the opinion that:

- 1. General Shari'ah compliance: Shari'ah internal audit reports show that all Jadwa's dealings are in compliance with the Shari'ah board resolutions and the firm commitment of the company to be Shari'ah compliant. There were few audit remarks that do not affect the company's performance related to Shari'ah. These remarks were resolved.
- 2. Contracts and agreements: All contracts and agreements that Jadwa have entered into during the year 2008, and was brought to our attention were Shari'ah compliant
- 3. Profit and loss: Profits and losses charged to the investment account are consistent with the rules Shari'ah board had approved, and are Shari'ah compliant.
- 4. Purification amounts: Income received from prohibited sources was disposed of through distribution to charitable purposes.
- 5. Zakat: it was calculated as per Shari'ah guidelines.

The Shari'ah board expresses its gratitude to Jadwa management and staff for their firm commitment to applying Shari'ah guidelines and resolutions. We pray to Allah Almighty to grant them success. Peace and blessings are due to prophet Muhammad, his household and companions.

Scope of Audit

We have audited the accompanying balance sheet of Jadwa Investment - Saudi closed joint stock company (the "Company") as at December 31, 2008, and the related statements of income, cash flows and changes in shareholders' equity for the year then ended, and notes 1 to 22 which form an integral part of these financial statements as prepared by the Company in accordance with Article 123 of the Regulations for Companies and presented to us with all the necessary information and explanations. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting standards used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Unqualified Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2008, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting standards appropriate to the nature of the Company, and comply with the relevant provisions of the Regulations for Companies and the articles of association of the Company as these relate to the preparation and presentation of these financial statements.

Notes to the Financial Statements for the year ended December 31, 2008

1. GENERAL

Jadwa Investment (the "Company") is a Saudi closed joint stock company established pursuant to Royal Decree Number M/30 and registered in Riyadh, Kingdom of Saudi Arabia under Commercial Registration No. 1010228782 on 1 Safar 1428H (corresponding to February 19, 2007).

The principal activities of the Company are trading as principal and agent, underwriting, establishment and management of mutual funds and portfolio management, arranging, providing advisory and safekeeping services for administrative arrangements and procedures relating to investment funds, portfolio management and trading as per license of the Capital Market Authority ("CMA") number 37-6034, dated 3 Sha'baan 1427H (corresponding to August 27, 2006).

2. SUMMARY OF SIGNIFICANT ACCOUNTING **POLICIES**

The accompanying financial statements have been prepared in accordance with the Standard of General Presentation and Disclosure issued by the Ministry of Commerce and in compliance with the accounting standards issued by the Saudi Organization for Certified Public Accountants. The following is a summary of significant accounting policies applied by the Company:

The Company follows a fiscal year ended December 31.

Accounting convention

The financial statements are prepared under the historical cost convention except for the measurement at fair value of available for sale investments.

Cash and cash equivalents

Cash and cash equivalents include bank current accounts and highly liquid investments with original maturities of three months or less from the acquisition date.

Available for sale investments

Available for sale investments are stated at fair value, and the changes in fair value are included in shareholders' equity. Where the fair value is not readily determinable, such financial instruments are stated at cost less allowance for impairment in value.

An assessment is made at each balance sheet date to determine whether there is objective evidence that a specific financial asset or a group of financial assets may be impaired. If such evidence exists, any impairment loss is recognized in the statement of income. For assets carried at cost, impairment is determined as the difference between cost and the present value of future

cash flows discounted at the current market rate of return

Impairment and uncollectibility of financial assets

Investment in associate

for similar financial assets.

Associates are those entities in which the Company holds more than 20% but less than 50% in the share capital or otherwise can significantly influence the financial and operating policies of the investee company. Investments in associates are initially recorded at cost and subsequently accounted for under the equity method of accounting and are carried in the balance sheet at the lower of the equity-accounted or recoverable amount.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation. Expenditure on maintenance and repairs is expensed, while expenditure for betterment is capitalized. Depreciation is provided over the estimated useful lives of the applicable assets using the straight-line method. Leasehold improvements are amortized over the shorter of the estimated useful life or the remaining term of the lease. The estimated useful lives of the principal classes of assets are as follows:

	Years
Computer hardware	4
Computer software	4
Furniture and fixtures	4
Office equipment	4
Motor vehicles	4
Leasehold improvements	7

Notes to the Financial Statements for the year ended December 31, 2008 (continued)

Pre-operating expenses

Pre-operating expenses comprise of underwriting fees, lawyers, administrators, consultants and accountants fees, various fees relating to registering the Company, advertising and promotion expenses relating to establishing the Company, costs of the share certificates and expenditure to obtain licenses, salaries, rental expenses and others.

Provisions for obligations

A provision is made when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Foreign currency translation

Foreign currency transactions are translated into Saudi Riyals at the rates of exchange prevailing at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the exchange rates prevailing at that date. Gains and losses from settlement and translation of foreign currency transactions are included in the statement of income.

End-of-service indemnities

End-of-service indemnities, required by Saudi Arabian Labor Law, are provided in the financial statements based on the employees' length of service.

Assets under management

The Company offers assets management services to its customers, which include management of certain mutual funds. Such assets are not treated as assets of the Company and accordingly are not included in the financial statements.

Revenue recognition

Revenue is recognized upon delivery of services to customers and is stated net of discounts.

Dividends from investments are recognized when earned or publicly declared by the investee.

Commission income is recognized on an accrual basis.

Zakat

The Company is subject to the Regulations of the Directorate of Zakat and Income Tax (DZIT) in the Kingdom of Saudi Arabia. Zakat is provided on an accruals basis. The Zakat charge is computed on the Zakat base. Any difference in the estimate is recorded when the final assessment is approved, at which time the provision is cleared.

3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include bank current accounts and Murabaha contracts with original maturities less than three months from the acquisition date:

	2008 SR	2007 SR
Bank current accounts	12,211,508	6,540,796
Murabaha contracts	249,000,000	19,500,000
	261,211,508	26,040,796

4. AVAILABLE FOR SALE INVESTMENTS

Cost and fair value of available for sale investments as at December 31, are as follows:

	Initial cost SR	Change in fair value SR	Fair value 2008 SR	Fair value 2007 SR
Open-ended funds	202,072,527	(71,847,113)	130,225,414	58,544,284
Closed-ended funds	100,023,000	11,180,400	111,203,400	-
Equity shares	36,677,988	(4,427,883)	32,250,105	-
	338,773,515	(65,094,596)	273,678,919	58,544,284

The change in fair value of available for sale investments amounting to (SR 79,538,882) is included in shareholders' equity as at December 31, 2008 (December 31, 2007: SR 14,444,284).

5. PREPAID EXPENSES AND OTHER ASSETS

Provisions and other liabilities	4,290,326	5,592,918
	23,974,203	54,849,242

11. SHARE CAPITAL

The share capital of the Company, amounting to SR 500,000,000, is divided into 50,000,000 shares of SR 10 each.

On October 25, 2008, the Company and Khazanah Nasional Berhad ("Khazanah"), the investment arm of the Malaysian government, signed a partnership agreement previously approved by the Board of Directors in their meeting on August 6, 2008. Under the terms of the agreement, and subject to the approval of the Capital Market Authority, Jadwa Investment will issue new shares and Khazanah will acquire an equity stake in Jadwa Investment amounting to SR 342.45 million, representing 10% of Jadwa's capital after the capital increase. The above transaction is expected to be finalized during the first quarter of 2009.

12. STATUTORY RESERVE

In accordance with the Regulations for Companies in Saudi Arabia, the Company has established a statutory reserve by the appropriation of 10% of net income until the reserve equals 50% of the share capital. This reserve is not available for dividend distribution.

13. SALARIES AND OTHER BENEFITS

	Year ended December 31, 2008 SR	Period from February 19, 2007 to December 31, 2007 SR

15. OTHER INCOME

	Year ended December 31, 2008 SR	Period from February 19, 2007 to December 31, 2007 SR
Gain on sale of land	9,965,000	-
Gain on sale of property and equipment	41,064	-
	10,006,064	-

On July 5, 2007, the Company and a company owned by a shareholder of Jadwa Investment, agreed to purchase four plots of land on King Fahad Road in Riyadh for a total amount of SR 29,725,000, which was settled in full by the above mentioned company. The objective of the above purchase was to build a business center with Jadwa Investment moving in its head office and a customer service branch and to rent out the other floors to third parties.

On March 3, 2008, and due to favorable market conditions and a shift in the Company's corporate strategy, the two parties decided to cancel their plans to build the investment center. As a result, the two parties sold the plots of land at an equal gain of SR 9,965,000 for each.

16. RESTRUCTURING COSTS

On December 3, 2008, the Board of Directors' Executive Committee approved the restructuring of the Business Development Department as recommended by the Company's management, resulting in the closure of the regional trading branches and the creation of a new department "Wealth Management".

The restructuring included the following:

- Closure of all trading branches located in Riyadh, Jeddah, Hafouf and Khobar;
- Write-down of the additional IT capacity associated with the shift in strategy; and
- Termination of branches' employees.

The costs associated with the restructuring amounted to SR 15.15 million as follows:

Year ended
December 31, 2008
SR

Closure of branches	
Fixtures	7,975,787
Furniture	1,277,491
Computer hardware	574,830
Office equipment	366,658
Write-down of the unutilized additional IT capacity	4,383,400
Termination of branches' employees	568,715
	15,146,881

17. EARNINGS PER SHARE

Earning per share from operations for the year is calculated by dividing the income from operations for the year by the weighted average number of shares for the year ended December 31, 2008 and amounting to 50 million shares.

Earning per share from net income for the year is calculated by dividing the net income for the year by the weighted average number of shares for the year ended December 31, 2008 and amounting to 50 million shares.

18. COMMITMENTS AND CONTINGENCIES

At December 31, 2008, the Company had an outstanding commitment in the form of a letter of guarantee with respect to its share of the investment in an associate amounting to SR 330 million (2007: SR 330 million).

At December 31, 2008, the Company was holding clients' cash accounts with the company, amounting to SR 98.84 million (2007: SR 152.04 million), to be used for investments on the clients' behalf. Consistent with its accounting policy, such balances are not included in the Company's financial statements.

19. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. The Company's financial assets consist of cash and cash equivalents, accounts receivable, available for sale investments, investment in associate and other assets and its financial liabilities consist of zakat provision other liabilities and due to related parties. The fair values of financial instruments are not materially different from their carrying values.

20. ASSETS UNDER MANAGEMENT

These represent the mutual funds' assets related to the funds unit holders managed by the Company, which amount to SR 3.68 billion as at December 31, 2008 (2007: SR 2.92 billion). Consistent with its accounting policy, such balances are not included in the Company's financial statements.

Notes to the Financial Statements for the year ended December 31, 2008 (continued)

21. RISK MANAGEMENT

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial assets, which are potentially subject to concentration of credit risk, consist principally of cash at bank, investments and other receivables. The Company's cash equivalents and investments are placed with banks and third parties of repute and hence the credit risk is limited. The credit risk with respect to other receivables is limited as the total amount receivable is spread over a number of accounts.

Foreign exchange risk

Currency risk is the risk that the value of a financial investment will fluctuate due to change in foreign exchange rates. Management closely monitors the exchange rate fluctuations and believes that there is minimal risk of losses due to exchange rate fluctuations as the Company primarily deals with Saudi Riyals.

Special commission rate risk

The Company is subject to special commission rate risk on its commission bearing bank time deposits.

The sensitivity of the income is the effect of the assumed changes in special commission rates on the Company's profit for one year, based on the floating rate financial assets and financial liabilities held at December 31, 2008. There is no impact on the Company's shareholders' equity.

Liquidity risk

Liquidity risk is the risk that arises from the difficulty of selling an asset in a timely manner and quickly enough to prevent or minimize a loss. Liquidity risk is closely monitored by performing regular review of available funds and present and future commitments.

22. COMPARATIVE FIGURES

Certain figures for 2007 have been reclassified to conform with the presentation in the current year.
